Looks like we have lots to talk about on this call in 10. The wheels have fallen off here at my house so please enjoy a screaming 2 year old during the call.

I will let them know that the call needs to include more members of the data team and potentially Janine.

Here is the flowchart that depicts data validation through posting. Reggie wanted us to pass along the caveat about posting photos that show the yellow water without the

comparison of new photos with current conditions.

Please let us know if you have any questions on this.

We had a chance to view the link you sent to your viewer and have a few questions. We would like to set up a call to discuss these questions.

Thanks,

Hello all,

Attached is the flow chart I promised. Please let me know if you would like any edits and I can do them. BTW I included the pictures in the metadata - not sure if this should be included but I thought it would be good to have it a part of the approval process (if they are ever used). Thanks, Emily
